

FOR IB VISUAL ARTS 1

Summer Expectations 2021:

1. **EE** (In Art or other subjects)
2. **WORK ON GIVEN FEEDBACK FOR PP AND CS:** The first assignment of the year will be to check corrections on given feedback on both Process Portfolio and Comparative Study. [Please do not delete my feedback given after the Mock exam. I will resolve them when I check them in September.]
3. **HL STUDENTS-** **plan and create at least one piece of work that is related to all or one of the artists you have researched for the Comparative Study.** The connections can be thematic and/or media based. [**SL STUDENTS-** it can relate to a different artwork than those you have studied in the CS.] Share your sketches, annotations and plans in your journal. In September you will finalize the last part of your CS based on this.
 - **NB** - I would HUGELY encourage you all to make further artworks over the summer in relation to the ideas placed on your mind map regarding artists, media and notions you like - **especially if you are behind in any way.** Remember to document and write about your process following all the steps related to the relevant criteria of Process portfolio and Exhibition.
4. **LAND ART-** It is an excellent opportunity to work on this. Look on Moodle /Art making and Techniques/Installations-Land Art
<https://moodle.acs.gr/course/view.php?id=3347§ion=28>
Get inspired from the Power Point on Land Art, the artists shown and the instructions on side specific art work. Be creative. Enjoy the process! Photograph or video tape it. Document it in your journal.
5. **Discover new artists by visiting exhibitions, galleries or museums!**
