Dear Elementary School Parents and Guardians,

This letter is to inform you that, according to the 2018 EU regulation on Personal Data Protection (GDPR) and its recent adoption by the Greek Law in August 2019, our school can no longer be distributing the student contact lists by our homeroom teachers. This is for the protection of your personal information and the liability the school has in processing (distribution) of such information.

We understand this may cause issues with the Elementary School families as creating playdates and party arrangements for our younger students will be impacted. However, this legislation has affected all of our school procedures and we ask for your understanding of this imposition. We do hope that events during the school year will provide you with opportunities to mingle and share your contact details with each other.

We are looking forward to seeing you all at our Back to School Orientation during the school day on Thursday, September 26th, as well as the PTO BBQ after school on Friday, September 27th.

Thank you for your understanding.
