

Worcester Polytechnic Institute is a private institution founded in 1865 and located in Worcester Massachusetts, and just 57 miles from Boston. It has a total undergraduate enrollment of 4,668 on an urban campus of 95 acres.

Top degree programs are: Bioengineering and Biomedical Engineering, Computer Science, Chemical Engineering, Mechanical Engineering, and Electrical and Electronics Engineering.

Through a project-based education, students discover the value of learning by doing. They take the hypothetical and make it real, applying skills and concepts from the classroom to real problems, leading to real-world experience and impact.

Watch this [great video](#) as 3 WPI students, including our very own **ACS Athens Alum, Angelos Makras**, discuss their experience at WPI.
